ACCOMAC COURT HOUSE, VA.

SATURDAY, OCTOBER 25, 1902.

Entered at the Postoffice at Accomac, C. H., Va., as second-class matter.

Election, Tuesday, Nov. 4th.

FOR CONGRESS, 1st District,

HON. WILLIAM A. JONES,

—OF—

RICHMOND CO.

The colored voter is not "in it" according to the figures published in regard to the registration throughout the State. In Accomac the qualified white voters outnumber the colored more than seven to one, in many counties the registration shows that they are not now more than one tenth of the voters, and in some counties only about twenty-five in a thousand are colored. The reports from every county, in fact show, it is stated, that the white voters are too largely in the majority to give the Republicans any hope of winning in this or later elections, but it is none the less the duty of every Democrat to vote. Even with the Republican voters so largely in the minority we cannot afford to forget, "that eternal vigilance is the price of liberty."

The end of the struggle between capital and labor, which began several months ago, was reached on Tuesday by the acceptance on the part of the miners of the arbitration commission, appointed by President Roosevelt, and the announcement is made in connection therewith, that the miners will return to work at once and a bountiful supply of coal may soon be expected. That the victory was on the side of the miners is of course cause for rejoicing, but neither they or the operators are the only persons to be considered. The people who consume the coal too have rights which cannot be ignored and a remedy which will protect them, when a dispute arises again between capital and labor calls for legislation in their interest. How that to be secured is another question and the only solution seems to be in a change of the party in power. The Republican party, as shown by the late struggle, is too much dominated by trusts, to hope for legislation in that direction in the interest of all the people.

The death of Col. Thomas Tabb, of Hampton, which occurred in the city of Philadelphia, on the 17th inst., is received with sincere regret on the Eastern Shore, not only by those who had a personal acquaintance with the man, but by the many who knew him by reputation as one of the most prominent, as well as one of the best citizens of the old Commonwealth. All who knew him here or elsewhere will join in the following well deserved tribute to his memory, which appeared in a late issue of the Newport News Press: "Colonel Tabb's personality embodied all the elements of attractive manhood and true nobility. A devout Christian, he was a stranger to cant. Intellectual and learned, his attainments were never upon idle parade. He was wealthy without ostentation. Influential in politics, he never stooped to a questionable deed. His life was pure as it was blameless. His charity was measured by no rule of ten; he gave according to the promptings of his big heart. His highest ambition was to be a good man and a useful citizen. He succeeded in both. Men loved him for his kindness and respected him for his absolutely unswerving integrity."

The following communication from Mr. R. B. Cooke, under date of October 20th, explains itself:

With a view to giving a better and more satisfactory service for passengers traveling between local stations, and also through travel to local stations from Old Point Comfort, Norfolk and Portsmouth and points South, as well as from points North of Delmar, and through travel from local stations to points North, and also points South, the New York, Philadelphia & Norfolk Railroad will make some important changes in its train service, which will materially increase the service for local passengers by giving additional trains between Cape Charles and Delmar, in both directions. The Railroad will endeavor to arrange its schedules with a view to accommodating the local travel. The new schedules, and additional trains will probably be arranged to take effect, the latter part of October, or very early in November.

The information contained in the above, it goes without saying, will be received with pleasure by the people of the Eastern Shore, and it is to be hoped, that Mr. Cooke will be able to see his way clear to arrange its schedules with the view "to accommodating the local travel." Any "arrangement" which gives us more day trains will be a convenience long hoped for and, we believe, will be in the interest of both the railroad company and its patrons. Any change will be for the better which will enable us to travel without having to get up from 2 to 3 a. m. to catch the morning train.

The rigid enforcement Sunday in Richmond of the Blue law created a sensation. Monday the executive of the Blue law, the street railway proprietors of all of the morning newspapers, and all of the newsdealers were summoned to court for laboring on the sabbath. New York and other Northern papers had representatives there to protect their carriers and pay their fines, should the cases against them be decided adversely.
